

Pick 6 Bingo Instructions

Players:

2-20. The more the better!

Equipment/Components:

Bingo Blower, playing cards, balls, daubers, table top signs & ball holder.

Goal:

Pick 6 Bingo is a game of chance. A game win occurs when a player has all six numbers.

Setup:

1. Place The Bingo Blower on a sturdy surface such as a table or counter top.
2. Make sure power switch is in the off position. The power switch is located on the power cord. Next, Connect The Bingo Blower to an electrical outlet.
3. Open glass lid of The Bingo Blower machine and place balls inside.
4. Turn on machine. The balls will begin to flow!
5. Provide players with one bingo card and one dauber each.

NOTE: There are twenty cards per set. A new set of cards should be used for each new round. Each bingo card is numbered (#1 - #20) at the top left corner of the card.

It is imperative that at the end of every round, the unused bingo cards for that round are discarded. Mixing left over cards with future rounds will increase chances of more than one winner in a round.

6. Remove the ball that is hovering in the ball catcher. Announce the number to players. Players should then use the provided daubers to stamp their cards accordingly.
7. As you remove the balls from the machine, place them on the winning ball stand to display to players.
8. The first player to have all six numbers listed on their Pick 6 Bingo card, WINS!
